

## **Business relationships**

### **Covid 19 addition from November 1<sup>st</sup> 2020**

The Corona pandemic has already affected us for several months and will most likely continue to do so for a period.

Even though our government has established and supports us through several economic and financial schemes, we face a more difficult time. We are doing our best in trying to stop or limited the spread of Covid 19 and have already established a lot of different measures.

- Restricted entrance control
- No use of cafeteria
- Extra cleaning, with disinfection several times a day
- No big meetings
- All truckdrivers needs to wear facemask and gloves while picking up goods
- Placement of several disinfection stations
- Reduced activity between internal departments
- Dedicated employees that looks after that our restrictions are followed

These measures have helped us to offer all of you business as usual, but of course to a cost that grows. Along with increased cost on our side, we face several messages from our suppliers that they have to do the same. The increased cost related to Covid 19 has now reached a level that we no longer can pay alone.

Prime Cargo accepts the governmental advices that are given and will do our best in fulfilling them. On the other hand, we declare a force majeure situation, and introduces a temporary Covid 19 addition. From November 1<sup>st</sup> we will charge 4,5% extra on all our invoices. The extra charge will be due until the Covid 19 restrictions are repealed.

It is with sadness we inform you about this, but we hope for understanding. We think it is better to pay some extra money for a secured delivery. None of us would gain from a possible shut down.
